Wikibooks is a useful resource if you're curious about a subject, but you couldn't reference it in academic work. It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-

Almost by definition, truckers have always been practically obsessed with engine reliability fuel mileage. To meet the demand for a new type of engine that would help usher turbo-diesels into this millennium, Detroit Diesel (a subsidiary of Chrysler AG) introduced the Series 60 as its industry trump car. Though the millions of 60s produced
