Williams and colleagues took a more qualitative approach when they looked the use of foot orthoses for 16 weeks for lower ... Mr. Griffiths is a sports podiatrist in the United Kingdom and ...

A Biopsychosocial Approach To Foot Orthoses: Considering ...

Multidisciplinary team (MDT) approach has been shown to reduce diabetic foot ulcerations (DFUs) and lower extremity amputations (LEAs), but there is heterogeneity between team members and interventions. Podiatrists have been suggested as “gatekeepers” for the prevention and management of DFUs. The purpose of our study is to review the effect of podiatric interventions in MDTs on DFUs and LEAs.

Effect of contact with podiatry in a team approach context ...

As licensed podiatrists, our goal is to provide the highest quality of care for our patients. In order to begin an effective podiatry treatment program and ensure positive results, our approach involves providing our patients with the information they need to make good choices about their foot and ankle care.
