Vegetables Herbs And Fruit An

Vegetables and herbs can be widely defined. Vegetables are those plants where a part, such as the leaf, stem, or root, can be used for food. Herbs, similarly, are those plants that are used for food, medicine, scent, or flavor. Fruits tend to be the sweet, juicy parts of the plants, containing the seed.

You can also grow rosemary, oregano, and basil in water gardens. Lemon balm, cilantro, and dill are good choices to use for filling in the areas between taller vegetable plants. If you plant fragrance herbs such as lavender, anise, and pennyroyal, you'll find they will scent the air around the garden.

Hydroponic Plants Include Vegetables, Fruit and Herbs ...

Herbs and vegetables should be composted, as their job here is done. Of course, there are always exceptions. Some recipes call for whole fruits to be infused for more than six months, even years, so recipes do vary depending on the fruit, the style of the infusion, the addition of sugars, among other things.

Pickled vegetables and even fruits are a satisfying way to preserve your harvest. The post How to Pickle Every Vegetable and Fruit appeared first on Taste of Home.

How to Pickle Every Vegetable and Fruit

Use High-Quality Fruits and Herbs. The fruit and herbs are adding flavor to the water. But if they are not organic, they might be adding some unintended pesticides or chemicals. I always try to choose high-quality fresh organic produce for making infused waters to avoid the pesticides in much conventional produce.
